How do the rich get rich? An updated edition of the “ remarkable ” New York Times bestseller, based on two decades of research (The Washington Post). Most of the truly wealthy in the United States don ’ t live in Beverly Hills or on Park Avenue. They live next door. America ’ s wealthy seldom get that way through an inheritance or an advanced degree. They bargain-shop for used cars, raise children who don ’ t realize how rich their families are, and reject a lifestyle of flashy exhibitionism and competitive spending. In fact, the glamorous people many of us think of as “ rich ” are actually a tiny minority of America ’ s truly wealthy citizens—and behave quite differently than the majority. At the time of its first publication, *The Millionaire Next Door* was a groundbreaking examination of America ’ s rich—exposing for the first time the seven common qualities that appear over and over among this exclusive demographic. This edition includes a new foreword by Dr. Thomas J. Stanley—updating the original content in the context of the financial crash and the twenty-first century. “ Their surprising results reveal fundamental qualities of this group that are diametrically opposed to today ’ s earn-and-consume culture. ” —Library Journal

Jennifer Traig's memoir *Devil in the Details* paints a portrait of a well-meaning Jewish girl and her good-natured parents, and takes a very funny, very sharp look back at growing up with obsessive-compulsive disorder. Recalling the agony of growing up an obsessive-compulsive religious fanatic, Traig fearlessly confesses the most peculiar behavior like tirelessly scrubbing her hands for a full half hour before dinner, feeding her stuffed animals before herself, and washing everything she owned because she thought it was contaminated by pork fumes. Jennifer's childhood mania was the result of her then undiagnosed OCD joining forces with her Hebrew studies-what psychiatrists call scrupulosity While preparing for her bat mitzvah, she was introduced to an entire set of arcane laws and quickly made it her mission to follow them perfectly. Her parents nipped her religious obsession in the bud early on, but as her teen years went by, her natural tendency toward the extreme led her down different paths of adolescent agony and mortification. Years later, Jennifer remembers these scenes with candor and humor. In the bestselling tradition of *Running with Scissors* and *A Girl Named Zippy*, Jennifer Traig tells an unforgettable story of youthful obsession.
