Argument here does not refer to the equivalent of a verbal fistfight. Rather, argument refers to reasoning and rhetoric. It is generally persuasive in style, or at least should be, and should reasonably follow standards of logic or critical thinking. Argument is defining, expounding, and defending a proposition or premise.

If the workbook doesn't need to be routed to the next recipient (if it has no routing slip or has already been routed), this argument is ignored. Otherwise, Microsoft Excel routes the workbook according to the value of this parameter. If set to True, the workbook is sent to the next recipient. If set to False, the workbook is not sent. If ...
