Primary-grade teachers face an important challenge: teaching children how to read while enabling them to build good habits so they fall in love with reading. Many teachers find the independent reading workshop to be the component of reading instruction that meets this challenge because it makes it possible to teach the reading skills and strategies children need and guides them toward independence, intention, and joy as readers. In *Growing Readers*, Kathy Collins helps teachers plan for independent reading workshops in their own classrooms. She describes the structure of the independent reading workshop and other components of a balanced literacy program that work together to ensure young students grow into strong, well-rounded readers. Kathy outlines a sequence of possible units of study for a yearlong curriculum. Chapters are devoted to the individual units of study and include a sample curriculum as well as examples of mini-lessons and reading conferences. There are also four "Getting Ready" sections that suggest some behind-the-scenes work teachers can do to prepare for the units. Topics explored in these units include: print and comprehension strategies; reading in genres such as poetry and nonfiction; connecting in-school reading and out-of-school reading; developing the strategies and habits of lifelong readers. A series of planning sheets and management tips are presented throughout to help ensure smooth implementation. We want our students to learn to read, and we want them to love to read. To do this we need to lay a foundation on which children build rich and purposeful reading lives

that extend beyond the school day. The ideas found in Growing Readers create the kind of primary classrooms where that happens.

"Happy Hooking - The Art of Anchoring" is a very readable book on boat anchoring. It is loaded with valuable information on anchoring tackle, anchoring technique, tying up and rafting, anchoring etiquette, as well as the occasional anecdote - simply stated a must have for any boater or sailor. The second expanded edition of "Happy Hooking - the Art of Anchoring" features: More gear More photos More illustrations More independent reviews Experience from both sides of the Atlantic Personal anecdotes based on many thousands of miles of sailing and countless times anchoring Unless you are far offshore, at some point or another you are going to need to 'park' your boat. Just like knowing how to stop your car before you start is perhaps the most important part of driving, we feel that anchoring is perhaps the most important skill you can and should acquire in boating. Anchoring a boat can be a lovely dance in a harbor, or a painful and often embarrassing display of Homo sapiens' inability to plan or communicate. We will endeavor to help you find a combination of tackle and technique best suited for your circumstances when anchoring your vessel. By outlining how different anchors work, the pluses and minuses of different adjunctive pieces of equipment, the current thinking about how to deploy this equipment, and how to select an anchorage, we hope you will be armed with enough information to make some informed decisions about what might work best for you. If you could take only one piece of advice from these pages with you on your travels, perhaps you will remember what Tommy Moran, an old salt in the West of Ireland, advised time and again: "Anchor as though you plan to stay for weeks, even if you intend to leave in an hour." "Happy Hooking " EDITORIAL REVIEWS: Ocean Cruising Club "The definitive textbook on the subject." Cruising Club of America ""Happy Hooking" is well organized, well illustrated, and easy to read. It should be mandatory reading for novice sailors and charter operators would do well to place copies throughout their fleet. This would be an excellent gift to up-and-coming boaters." Captain John Jamieson, Author of Skipper Tips and Seamanship Secrets "The single most important guide to anchoring for the modern sailor of the 21st century. Easy to read and filled with super clear illustrations and drawings. Add "Happy Hooking-The Art of Anchoring" to your onboard list of "must have guides" for safe anchoring-whenever in the world you choose to cruise " SailWorld.com "Might be compulsory reading for the new sailor. Even the most experienced will find much new material here." Latitudes & Attitudes Seafaring "This is the bible for all things anchoring." Irish Cruising Club "It is hard to imagine a more comprehensive study of the topic. This is a remarkably easy book to read."
