[Bringing Transnational Relations Back in: Non-State Actors](#)

Taking a fresh look at the impact of non-state actors on world politics and on the foreign policies of states, this book revives the debate on transnational relations which started in the 1970s. This debate withered away in the face of state-centered approaches, but this book's new approach emphasizes the interaction of states and transnational actors, arguing that domestic structures of the ...

[The Politics of Migrants' Transnational Political](#)

Until recently, dominant theoretical paradigms in the comparative social sciences did not highlight states as organizational structures or as potentially autonomous actors. Indeed, the term 'state' was rarely used. Current work, however, increasingly views the state as an agent which, although influenced by the society that surrounds it, also shapes social and political processes.
