A first work of non-fiction available in English by the James Joyce Foundation Award-winning Chinese author of *Brothers* is presented through a framework of ten common phrases in the Chinese vernacular to offer insight into the nation's modern economic gaps, cultural transformations and ubiquitous practices of deception.

From one of China's most acclaimed writers, his first work of nonfiction to appear in English: a unique, intimate look at the Chinese experience over the last several decades, told through personal stories and astute analysis that sharply illuminate the country's meteoric economic and social transformation. Framed by ten phrases common in the Chinese vernacular—"people," "leader," "reading," "writing," "Lu Xun" (one of the most influential Chinese writers of the twentieth century), "disparity," "revolution," "grassroots," "copycat," and "bamboozle"—China in Ten Words reveals as never before the world's most populous yet oft-misunderstood nation. In "Disparity," for example, Yu Hua illustrates the mind-boggling economic gaps that separate citizens of the country. In "Copycat," he depicts the escalating trend of piracy and imitation as a creative new form of revolutionary action. And in "Bamboozle," he describes the increasingly brazen practices of trickery, fraud, and chicanery that are, he suggests, becoming a way of life at every level of society. Characterized by Yu Hua's trademark wit, insight, and courage, China

Author Yu Hua presents ten essays based on the ten words he feels best sum up the modern state of his country, and his own life experience. How do you define a country? Writer Yu Hua chooses to describe his country with an analysis of ten words. Words like "revolution", "people", "grassroots", and "writing". These words become the central theme of ten essays exploring the cultural identity and changing landscape of his country. Hua draws on sociology, economics, and his own experiences as a dentist, novelist, and participant in the 1989 Tiananmen Square Protests to paint a picture of China larger in scope and depth than we might usually see in the west.

From the author of Brothers and China in Ten Words: this celebrated contemporary classic of Chinese literature was also adapted for film by Zhang Yimou. This searing novel, originally banned in China but later named one of that nation's most influential books, portrays one man's transformation from the spoiled son of a landlord to a kindhearted peasant. After squandering his family's fortune in gambling dens and brothels, the young, deeply penitent Fugui settles down to do the honest work of a farmer. Forced by the Nationalist Army to leave behind his family, he witnesses the horrors and privations of the Civil War, only to return years later to face a string of hardships brought on by the ravages of the Cultural Revolution. Left with an ox as the companion of his final years, Fugui stands as a model of gritty authenticity, buoyed by his appreciation for life in this narrative of humbling power.

From the acclaimed author of Brothers and To Live: a major new novel that limns the joys and sorrows of life in contemporary China. Yang Fei was born on a moving train. Lost by his mother, adopted by a young switchman, raised with simplicity and love, he is utterly unprepared for the tempestuous changes that await him and his country. As a young man, he searches for a place to belong in a nation that is ceaselessly reinventing itself, but he remains on the edges of society. At age

forty-one, he meets an accidental and unceremonious death. Lacking the money for a burial plot, he must roam the afterworld aimlessly, without rest. Over the course of seven days, he encounters the souls of the people he's lost. As Yang Fei retraces the path of his life, we meet an extraordinary cast of characters: his adoptive father, his beautiful ex-wife, his neighbors who perished in the demolition of their homes. Traveling on, he sees that the afterworld encompasses all the casualties of today's China—the organ sellers, the young suicides, the innocent convicts—as well as the hope for a better life to come. Yang Fei's passage maps the contours of this vast nation—its absurdities, its sorrows, and its soul. Vivid, urgent, and panoramic, *The Seventh Day* affirms Yu Hua's place as the standard-bearer of modern Chinese fiction.

From one of China's most famous contemporary writers, who celebrated novel *To Live* catapulted him to international fame, here is a stunning collection of stories, selected from the best of Yu Hua's early work, that shows his far-reaching influence on a pivotal period in Chinese literature. In the late 1980s and early 1990s, Yu Hua and other young Chinese writers began to reimagine their national literature. Departing from conventional realism in favor of a more surreal and subjective approach inspired by Kafka, Faulkner, and Borges, the boundary-pushing fiction of this period reflected the momentous cultural changes sweeping the world's most populous nation. The stories collected here show Yu Hua masterfully guiding us from one fractured reality to another. "A History of Two People" traces the paths of a man and a woman who dream in parallel throughout their lives. "In Memory of Miss Willow Yang" weaves a spellbinding web of signs and symbols. "As the North Wind Howled" carries a case of mistaken identity to absurd and hilarious conclusions. And the title story follows an unforgettable narrator determined to unearth a conspiracy against him that may not exist. By turns daring, darkly comic, thought-provoking, and profound, *The April 3rd Incident* is an extraordinary record of a singular moment in Chinese letters.

A bestseller in China, *Brothers* is an epic and wildly unhinged black comedy of modern Chinese society running amok. Here is China as we've never seen it before, in a sweeping, Rabelaisian panorama of forty years of rough-and-rumble Chinese history, from the madness of the Cultural Revolution to the equally rabid madness of extreme materialism. Yu Hua, award-winning author of *To Live*, gives us a surreal tale of two comically mismatched stepbrothers, Baldy Li, a sex-obsessed ne'er-do-well, and the bookish, sensitive Song Gang, who vow that they will always be brothers—a bond they will struggle to maintain over the years as they weather the ups and downs of rivalry in love and making and losing millions in the new China. Both tragic and absurd by turns, *Brothers* is a fascinating vision of an extraordinary place and time.

young Chinese boy throughout his childhood and adolescence during the reign of Chairman Mao. The middle son of three, Sun Guanglin is constantly neglected ignored by his parents and his younger and older brother. Sent away at age six to live with another family, he returns to his parents' house six years later on the same night that their home burns to the ground, making him even more a black sheep. Yet Sun Guanglin's status as an outcast, both at home and in his village, places him in a unique position to observe the changing nature of Chinese society, as social dynamics – and his very own family – are changed forever under Communist rule. With its moving, thoughtful prose, *Cries in the Drizzle* is a stunning addition to the wide-ranging work of one of China's most distinguished contemporary writers.
