One poll declared him the most influential American church leader of the last 100 years. Lyle E. Schaller has written literally millions of words of insight and advice for church leaders. His books alone number nearly 60 titles and span 40 years of publication, beginning in 1964. Now, this single volume makes available his best insights, organized by topic and framed with fascinating background perspective of Schaller himself. This volume both introduces Schaller to a new generation of church leaders and is a handy resource for those who grew up on Schaller's writing and count him as a major ministry influence.

Some churches grow rapidly, only to hit a ceiling. Other churches have experienced declining or static attendance--many of them for decades. Frustrated pastors and church leaders want growth methods that work, but without adding to pastoral fatigue. How to Break Growth Barriers argues that growth comes when effective leadership and lay-empowerment skills work hand in hand. This requires a shift of focus from the shepherd as the primary caregiver to shepherd as developer and coach of many caregivers. The authors show pastors how to communicate a vision for the future and then how to lead the congregation into the paradigms necessary for potentially limitless growth. The strategies found in this book are not only tried and true, and taken from a biblical perspective of a "harvest" vision. They're also newly updated to reflect our changing culture, including helpful charts and checklists for self-evaluation.

From the multimillion-copy bestselling author of *The 7 Habits of Highly Effective People*—hailed as the #1 Most Influential Business Book of the Twentieth Century—*The 3rd Alternative* turns Dr. Stephen R. Covey's formidable insight to a powerful new way to resolve professional and personal difficulties and create solutions to great challenges in organizations and society. There are many methods of "conflict resolution," but most involve compromise, a low-level accommodation that stops the fight without breaking through to amazing new results. *The 3rd Alternative* introduces a breakthrough approach to conflict resolution and creative problem solving, transcending traditional solutions to conflict by forging a path toward a third option, a 3rd Alternative that moves beyond your way or my way to a higher and better way—one that allows both parties to emerge from debate or even heated conflict in a far better place than either had envisioned. With the 3rd Alternative, nobody has to give up anything, and everyone wins.

This book offers provocations for what's now and what's next in educational leadership, simultaneously bringing the field both back to its basics—of equity, democracy, humanity, and education for all—and forward to productive, innovative, and necessary possibilities. Written during the pandemic reality of 2020, this collection shares the global voices and expertise of prominent and emerging leaders, scholars, and practitioners in education from the UK, the United States, South America, Canada, Europe, Australia, and the Middle East. The authors engage with the complexities and uncertainties of leading in education. They examine research, reflections, and real stories from which school leaders, education system leaders, policymakers, and researchers in the field of educational leadership, can learn, and in which they will find honesty, authority, and inspiration to guide the future of the field. The new perspectives and hopeful alternatives presented in this outstanding book are essential to researchers, school leaders, and policymakers, and are key to advancing education into positive and democratic futures.

Grounding evaluation in the theological and organizational context of mission (everyone a minister), Hudson describes case studies of four successful evaluation models that include the whole church. She suggests how "whole church" reviews might result in stronger pastoral ministry and new directions for mission. An important resource that will help clergy and laity explore mutual ministry, judicatory executives strengthen congregations, and new pastors get through their first congregational evaluation.
