Whether you're 20, 40, 60 or older, many of us are still looking for an answer to that perennial question, "What do I want to be when I grow up?" In Designing Your Life, Silicon Valley design innovators Bill Burnett and Dave Evans use their expertise to help you work out what you want -- and how to get it. Their phenomenally successful Life Design course has been tried and tested by thousands of people, from students to mid-career professionals to retirees contemplating a whole new future. Now in book form for the first time, their simple method will teach you how to use basic design tools to create a life that will work for you. Using lots of real-life stories and proven techniques like reframing, prototyping and mind-mapping you will learn how to build your way forwards, step-by-positive-step, to a life that's better by a design of your own making. Because a well-designed life means a life well-lived.

When Designing Your Life was published in 2016, Stanford's Bill Burnett and Dave Evans taught readers how to use design thinking to build meaningful, fulfilling lives ("Life has questions. They have answers."—The New York Times). The book struck a chord, becoming an instant #1 New York Times bestseller. Now, in DESIGNING YOUR WORK LIFE: How to Thrive and Change and Find Happiness at Work they apply that transformative thinking to the place we spend more time than anywhere else: work. DESIGNING YOUR WORK LIFE teaches readers how to create the job they want—without necessarily leaving the job they already have. "Increasingly, it's up to workers to define their own happiness and success in this ever-moving landscape," they write, and chapter by chapter, they demonstrate how to build positive change, wherever you are in your career. Whether you want to stay in your job and make it a more meaningful experience, or if you decide it's time to move on, Evans and Burnett show you how to visualize and build a work-life that is productive, engaged, meaningful, and more fun.

From the authors of the #1 New York Times bestseller Designing Your Life comes Designing Your New Work Life, a timely, urgently needed book that shows us how to transform our new uncharted work life into a meaningful dream job or company. With tools, tips, and design ideas that show us how to navigate disruption (global, regional, or personal) and create new possibilities for our post-COVID work world and beyond. Bill Burnett and Dave Evans successfully taught graduate and undergraduate students at Stanford University and readers of their best-selling book, Designing Your Life ("The prototype for a happy life."—Brian Lehrer, NPR), that designers don't analyze, worry, think, complain their way forward; they build their way forward. And now more than ever, we all need creative and adaptable tools to cope with the chaos caused by COVID-19. In Designing Your New Work Life, Burnett and Evans show us how design thinking can transform our present job, and how it can improve our experience of work in times of disruption. All disruption is personal. write Burnett and Evans, as with the life-altering global pandemic we are living through now. Designing Your New Work Life makes clear that disruption is the new normal, that it is here to stay and that it is accelerating. And in the book's new chapters, Burnett and Evans show us step by step, how to design our way through disruption and how to stay ahead of it—and thrive. Burnett and Evans's Disruption Design offers us a radical new concept that makes use of the designer mindsets: Curiosity, Reframing, Radical collaboration, Awareness, Bias to action, Storytelling, to find our way through these uncharted times. In Designing Your New Work Life, Burnett and Evans show us, with tools, tips, and design ideas, how we can make new possibilities available even when our lives have been disrupted (be it globally, regionally, or personally), giving us the tools to enjoy the present moment and allowing us to begin to prototype our possible future.

"Life, just like a design problem, is full of constraints—time, money, age, location, and circumstances. You cannot have everything, and if you want more out of it, you have to be creative about how to make what you need and what you want co-exist. This requires design thinking. Design the Life You Love uses a simple but proven creative thinking and design process to give ordinary people new tools to think about life differently, and also includes fascinating examples from the world of art and design that relate to each step of the process, plus guided creative exercises."--
