The perfect book for computer hobbyists, Apple I Replica Creation: Back to the Garage is sure to equally appeal both to kids with gift certificates looking for fun on a snowy January day as well as to adults eager to learn the basics of simple microcomputer design. The book will begin by teaching readers the basics of computer processing by discussing the functionality of the 9 chip on the Apple I motherboard. From there, readers will be taught the basics of memory access and video input and output. Readers then learn how to assemble the various hardware components into a fully functioning Apple I replica. Finally, readers will learn how to write their own applications to take run on their new/old computer. *Written by the webmaster of AppleFritter.com, which is the most popular Mac hobbyist Web site on the internet with over 10,000 visitors a day. *Interest in vintage Apple I Computers is extremely high, with original machines selling for as much as \$50,000. *The only modern-day book to address general microcomputer design from a hobbyist perspective

Ditch the fad diets and discover how to eat mindfully Packed with tips to help you make lasting dietary changes, Mindful Eating For Dummies paves the way for redefining your relationship with food, challenging your attitude about eating and making attainable changes to integrate mindful eating into everyday life. This no-nonsense, friendly guide offers essential guidance to get healthy, lose weight and avoid negative thought patterns associated with food--the mindful way. Mindfulness allows you to pay attention to what is going on in your surroundings in order to keep yourself alert and able to react effectively in the present. When applied to eating habits, the practice of mindfulness helps you to pay close attention to the sensation and purpose of each mouthful of food to avoid overeating and fully discover the joys of your meals. Learn how to reduce overeating and change your approach to food forever Begin to choose healthy foods mindfully Find advice on eating mindfully when you're dining out Discover how mindful eating can combat emotional hunger Whether you want to develop a healthier relationship with food to lose weight, manage a diet- or lifestyle-related illness or simply experience a better awareness and connection at mealtime, Mindful Eating For Dummies is your go-to guide for getting it done.

As more and more vulnerabilities are found in the Mac OS X (Leopard) operating system, security researchers are realizing the importance of developing proof-of-concept exploits for those vulnerabilities. This unique tome is the first book to uncover the flaws in the Mac OS X operating system--and how to deal with them. Written by two white hat hackers, this book is aimed at making vital information known so that you can find ways to secure your Mac OS X systems, and examines the sorts of attacks that are prevented by Leopard's security defenses, what attacks aren't, and how to best handle those

weaknesses.

Develop your own personal weight loss plan based on sound expert advice Total Body Diet for Dummies is your expert-led guide to losing weight – and keeping it off – the healthy way. It's easy to fall into the trap of fad diets with their promises of fast results and little effort, but fad diets are often ineffective at best, or downright dangerous at worst. This book gives you the benefit of expertise instead, putting Academy of Nutrition and Dietetics guidelines right at your fingertips. You'll learn why physical activity, calorie counting, and psychological support are the cornerstones of successful and lasting weight loss, and why you should track your food intake, exercise, and sleep. You'll learn all about the various tools that can help you reach your goals, including mindful eating, wearable technology and mobile apps, and how to choose the right ones for you. Written by a registered dietitian nutritionist, these easy-to-follow and simple-to-apply tips will help you develop a customized weight loss plan without upending your day-to-day life or breaking your budget. Conflicting guidance and questionable sources can make it that much harder to lose weight successfully without the help of a knowledgeable professional. This book cuts through the noise to bring you real guidance based on real research, with true expert advice to help you: Lose weight for good in a mindful way Become lean, strong, and healthy Stay on track with wearable tech Feel better and get energized Losing weight is not about 'magical' foods or self-deprivation. It's about your overall pattern of food intake, and most foods can fit into a healthy pattern in moderation. You just need to learn how to do it mindfully. Total Body Diet for Dummies is the supportive, informative guide you need to get right on track to a healthier you.
