The proactive management of people with long-term conditions, including the promotion of self-care by patients, is a key priority for the NHS. General practice has a central role in delivering more integrated and personalised care, and in implementing policies that target 'at-risk' individuals with appropriate interventions.

~~The management of long term conditions | The King's Fund~~

In order to design integrated care systems, people have told us that they want 'person-centred, coordinated care' giving the following narrative for how they manage their long term conditions: "My care is planned with people who work together to understand me and my carer(s), put me in control, co-ordinate and deliver services to achieve my best outcomes." (National Voices)
