Brutally dragged 780 metres beneath a taxi, a young woman's inspiring story of survival, courage, and the will to live. 13 September 2011. The story would shock thousands and be remembered by many for years to come. It would be plastered all over the papers and continue to attract interest well after the shock factor of what happened had passed. Reports and articles would be written, and "facts", as given to reporters by some of those involved and willing to be interviewed, would be recounted and repeated in all forms of public media over the months and even years that followed. And although these versions would generate widespread outrage, none was entirely accurate. The stories were about me. I was there. I am Kim McCusker, "the girl who was dragged by a taxi". This, as I experienced it, is the true version of events.

The history of the ANC, which is the oldest liberation movement on the African continent, is one that has generated a great deal of interest amongst historians in recent years. Gone are the days when the history of African nationalism could be relegated to the margins of the study of the South African past. Instead, with the ANC having ascended to the helm of political power, a position it has maintained for over twenty years, there can be no question that its history occupies an important and permanent place in the history of the nation. This volume gathers together some of the most important contributions to the literature on the ANC's role in South Africa's struggle for liberation. Besides important themes such as gender, ethnicity, and healthcare, contributions from leading historians also address why the ANC decided to engage in armed struggle; what role the South African Communist Party played in making this decision; how the ANC External Mission

contributed to the upsurge of mass protest in South Africa in the 1970s and 1980s; and the ANC's contribution, relative to the other components of the liberation struggle, in ensuring the eventual demise of the old racial order. The chapters in this book were originally published in the South African Historical Journal, the Journal of Southern African Studies, and African Studies.

"This anthology provides multiple research perspectives on how to develop engaging and effective online learning courses in the wake of the rapid digitalization of education"--

Defending Assessment Security in a Digital World explores the phenomenon of e-cheating and identifies ways to bolster assessment to ensure that it is secured against threats posed by technology. Taking a multi-disciplinary approach, the book develops the concept of assessment security through research from cybersecurity, game studies, artificial intelligence and surveillance studies. Throughout, there is a rigorous examination of the ways people cheat in different contexts, and the effectiveness of different approaches at stopping cheating. This evidence informs the development of standards and metrics for assessment security, and ways that assessment design can help address e-cheating. Its new concept of assessment security both complements and challenges traditional notions of academic integrity. By focusing on proactive, principles-based approaches, the book equips educators, technologists and policymakers to address both current e-cheating as well as future threats.

Archives, museums, and libraries are pivotal to the management and preservation of any society's heritage. Heritage assets should be systematically managed by putting in place proper policies, maintenance procedures, security and risks measures, and retrieval and preservation plans. The Handbook of Research on Heritage Management and Preservation is a critical scholarly resource that examines different aspects of heritage management and preservation ranging from theories that underline the field, areas of convergence and divergence in the field, infrastructure and the policy framework that governs the field, and the influence of the changing landscape on practice. Featuring coverage on a broad range of topics, such as community involvement, records legislation, and collection development, this book is geared towards academicians, researchers, and students seeking current research on heritage management and preservation.

Contemporary South African literature reflects a fascination with Russian and Eastern European stories of revolution and transformation as well as resistance to state oppression. In this groundbreaking book, Monica Popescu studies the formative role played by an imaginary and real Eastern Europe in literature written during and after apartheid. Reading the end of apartheid against the fall of the communist regimes in Eastern Europe, she rethinks the genealogy and aims of postcolonial studies in the context both of the Cold War and of the various forms of colonial domination and resistance in South Africa.

The book that inspired the major new motion picture Mandela: Long Walk to Freedom. Nelson Mandela is one of the great moral and political leaders of our time: an international hero whose lifelong dedication to the fight against racial oppression in South Africa won him the Nobel Peace Prize and the presidency of his country. Since his triumphant release in 1990 from more than a quarter-century of imprisonment, Mandela has been at the center of the most compelling and inspiring political drama in the world. As president of the African National Congress and head of South Africa's antiapartheid movement, he was instrumental in moving the nation toward multiracial government and majority rule. He is revered everywhere as a vital force in the fight for human rights and racial equality. LONG WALK TO FREEDOM is his moving and exhilarating autobiography, destined to take its place among the finest memoirs of history's greatest figures. Here for the first time, Nelson Rolihlahla Mandela tells the extraordinary story of his life--an epic of struggle, setback, renewed hope, and ultimate triumph.
