### *Practice 7 6 Natural Logarithms Answers*

Recall that by the definition of logarithm.  $\log Y = X \leftrightarrow Y = 10^X$ . Natural Logarithms. Besides base 10, another important base is e. Log to base e are called natural logarithms. "log e " are often abbreviated as "ln". Natural logarithms can also be evaluated using a scientific calculator. By definition.  $\ln Y = X \leftrightarrow Y = e^X$
