Scared Sitless: The Office Fitness Book - Kindle edition ...

Office fitness is a new concept of physical fitness that recognizes the sedentary, repetitive nature of modern computerized desk work. Sitting at a desk all day, operating a computer for long stretches of time, is a relatively new behavior. Over the past 30 years, tens of millions of us have been used as lab rats in an unplanned experiment that is testing how we respond to long stretches of sitting, in spine-crushing chairs, in high-stress jobs, doing repetitive actions, on poorly designed ...
