New chapters: Chapter 3: Stress and coping. This chapter explores theoretical models of stress, the impact of stress on human functioning, and strategies for coping with stress in the context of nursing practice and healthcare delivery Chapter 5: Working with Indigenous peoples of Australia and New Zealand. Co-authored by highly respected Indigenous and non-Indigenous academics from Australia and New Zealand, the chapter role-models Indigenous and non-Indigenous health professionals working alongside each other to improve health outcomes, and the practical role that nurses can play to improve the healthcare experiences of Indigenous people. Chapter 69: Recognising and responding to the deteriorating patient. Authored by one of Australia’s leaders in emergency response education, this chapter is designed to develop capability in relation to the National Safety and Quality Health Service Standards 2017, specifically Standard 8: Recognising and responding to acute deterioration. Chapter 70: Cardiopulmonary resuscitation: basic and advanced life support. Based on the Australian and New Zealand Committee on Resuscitation (ANZCOR) guidelines, this chapter promotes a problem-solving approach to the management of a patient in cardiac arrest by providing the science behind the techniques and interventions used to treat a patient in cardiac arrest.

Get a unique, conceptual approach to nursing care in this rapidly changing healthcare environment. Lewis’s Medical-Surgical Nursing, 11th Edition gives you a solid foundation in medical-surgical nursing. This thoroughly revised text includes a more conversational writing style, an increased focus on nursing concepts and clinical trends, strong evidence-based content, and an essential pathophysiology review. Content covers all aspects of nursing care including health promotion, acute intervention, and ambulatory care. Helpful boxes and tables make it easy for you to find essential information, and a building-block approach makes even the most complex concepts simple to grasp. Key topics such as interprofessional care, delegation, safety, and prioritization are integrated throughout. Additionally, extensive drug therapy information and diagnostic studies tables give you a full picture of care. Best of all — a complete collection of learning and study resources helps you learn more effectively and offers valuable, real-world preparation for clinical practice.

Designed for students in Nebo School District, this text covers the Utah State Core Curriculum for chemistry with few additional topics.

Established for fifteen years as the standard work in the field, Melvin Lewis’s Child and Adolescent Psychiatry: A Comprehensive Textbook is now in its Fourth Edition. Under the editorial direction of Andr e’s Martin and Fred R. Volkmar—two of Dr. Lewis’s colleagues at the world-renowned Yale Child Study Center—this classic text emphasizes the relationship between basic science and clinical research and integrates scientific principles with the realities of drug interactions. This edition has been reorganized into a more compact, clinically relevant book and completely updated, with two-thirds new contributing authors. The new structure incorporates economics, diversity, and a heavy focus on evidence-based practice. Numerous new chapters include genetics, research methodology and statistics, and the continuum of care and location-specific interventions. A companion Website provides instant access to the complete, fully searchable text.

The Advantage Grammar series helps prepare students to communicate effectively as writers. Students learn how to craft sentences and paragraphs for various purposes and even edit their own work! They receive instruction and practice in many key writing skills, including grammar, punctuation, capitalization, spelling, combining and expanding sentences, and paragraph structure.
